

# Introduction of JCI Guidelines: 2013 Practical Guideline for Investigation, Repair and Strengthening of Cracked Concrete Structures

コンクリートのひび割れ調査, 補修・補強指針2013

## Scope

(1) This Guideline covers the practicable investigations of cracked concrete members or structures, cause estimation, evaluation, judgment of the necessity of repair or strengthening, selection of the most effective repair and strengthening method, and the case studies. This Guideline applies mainly to cast-in-situ concrete structures.

(2) This Guideline covers the cracks generated in a concrete member or structure after casting and during the service life.

(3) The main users of this guideline are the owners including managers of the concerned structures as well as engineers who are working for investigation, cause estimation, evaluation, judgment and repair or strengthening of cracked concrete structures.

Only printed volume is available (Price: 4,320JPY).

## Contents

### Chapter 1 General

- 1.1 Scope and Objective
- 1.2 Procedure from Investigation to Repair and Strengthening
- 1.3 Terms and Definitions

### Chapter 2 Investigation

- 2.1 General
- 2.2 Standard Investigation
- 2.3 Detailed Investigation

### Chapter 3 Cause Estimation

- 3.1 General
- 3.2 Cause of Cracking
- 3.3 Cause Estimation Based on Standard Investigation
- 3.4 Cause Estimation Based on Detailed Investigation

### Chapter 4 Evaluation of Cracks

- 4.1 General
- 4.2 Evaluation-I (Applied for Cracks due to Drying Shrinkage, etc.)
- 4.3 Evaluation-II (Applied for Cracks due to Carbonation and Chloride Attack, etc.)
- 4.4 Evaluation-III (Applied for Cracks due to Combined Deterioration, etc.)

### Chapter 5 Judgment of Necessity of Repair and Strengthening 96

- 5.1 General
- 5.2 Methods of Judgment

### Chapter 6 Repair and Strengthening 101

- 6.1 General
- 6.2 Design of Repair and Strengthening
- 6.3 Repair Methods
- 6.4 Strengthening Methods
- 6.5 Repair and Strengthening Materials
- 6.6 Repair and Strengthening Works
- 6.7 Inspection
- 6.8 Records and Interim Observations
